

CAPABILITY STATEMENT

Alianza Enterprise Services LLC

Service coordination and operational support for government, prime, commercial, and institutional work.

Alianza Enterprise Services LLC supports service-based work with organized coordination, responsive communication, disciplined documentation, and dependable follow-through. The company is structured to help keep scopes clear, subcontractor performance accountable, and client-facing delivery well managed from mobilization through closeout.

 Illinois-based

Core Capabilities

- Facilities and site support coordination
- Janitorial, turnover, and interior support services
- Grounds, exterior, and field support coordination
- Project, logistics, and administrative support
- Subcontractor oversight, communication, and documentation control
- Field updates, issue tracking, and closeout follow-through

Differentiators

- Clear scope alignment before mobilization
- Responsive communication and disciplined follow-through
- Structured subcontractor coordination and accountability
- Organized documentation to support billing, proof of performance, and closeout
- Flexible support model for prime-contractor, public-sector, and institutional needs

Representative Support Areas

- Routine service support and site coverage
- Turnover, reset, and readiness support
- Exterior and seasonal support coordination
- Administrative, records, and communication support
- Project-specific field reporting and document support

Specific scopes are reviewed opportunity by opportunity so Alianza can align delivery, subcontractor support, and documentation requirements to the actual work.

Relevant Experience Approach

Project-specific references, relevant principal background, and team experience can be presented by opportunity, along with the subcontractor support structure and delivery plan that apply to the requested scope.

Alianza does not overstate past performance. Opportunity support is presented clearly, truthfully, and in the format most useful to the buyer or prime contractor.

Why Buyers and Primes Use Alianza

Alianza is built to reduce avoidable project friction. The focus is on organized coordination, clear points of contact, prompt communication, documented updates, accountable support teams, and orderly closeout that helps protect the client experience and the prime relationship.
